

SAFE KIDS LARIMER COUNTY

YEAR END REPORT 2021-2022

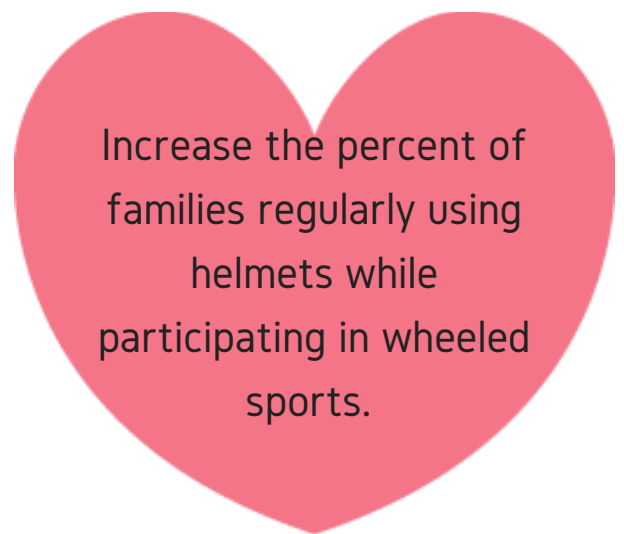

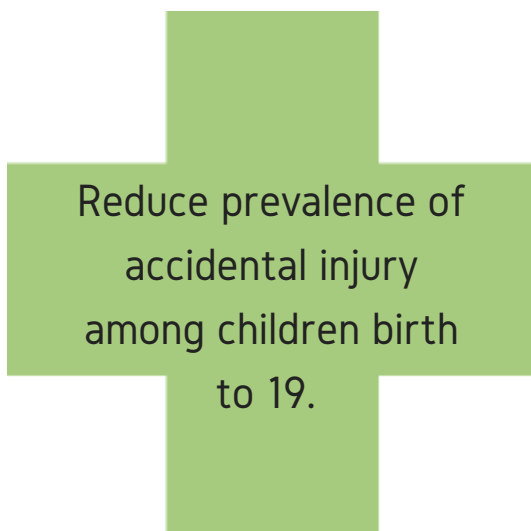

**SAFE
KIDS**
LARIMER
COUNTY

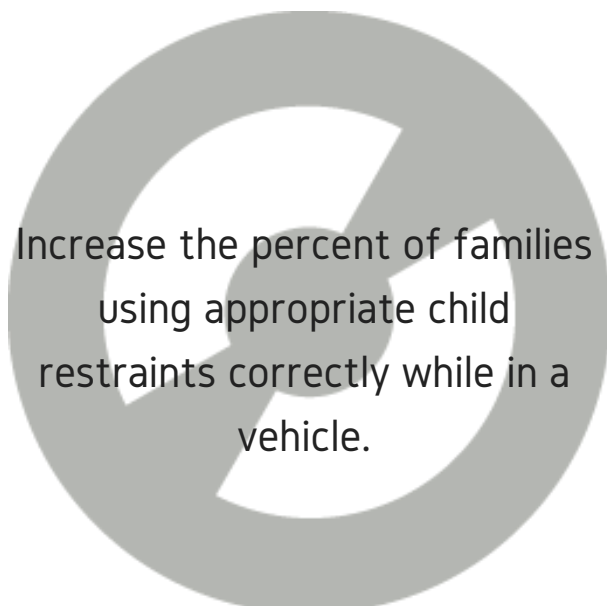

Our mission is to prevent accidental injury to children birth to 19 years of age at home, at play, and on the way.

Our vision is to eliminate accidental childhood injury.

Strategic Objectives

Prevention is hard to capture. Cost savings is not. A \$57 car seat saves \$2,400*. A \$14 helmet saves \$630*. A \$48 battery-powered smoke alarm saves \$880*. These cost savings can include medical costs, other resource costs such as fire and police department usage, productivity cost, future earnings and quality of life. Car seat checks cost \$80 per seat, mainly the donated time it takes, yet the savings are 75x that amount. Saving money is important, saving a life is priceless.

Assistance provided over the last 23 years:

With a cost savings of:

Car Seats Checked
31,809

\$190,854,000

Car Seats Distributed
7,349

\$17,637,600

Helmets Fit and Distributed
24,623

\$15,512,490

Smoke Alarms Distributed
5,258

\$4,627,040

*Data provided by the Children's Safety Network

\$228,631,130 in cost savings
through our partners since 1999

Community Car Seat Education & Distribution Program

One hour class provided to families who cannot afford a car seat. Each family receives a new, appropriately sized seat for their child at the end of the class for a minimal donation.

112 seats distributed
which assisted 105 families

Child Passenger Safety

Hospital Fit Station

Certified Child Passenger Safety Technicians provide free consultations to families on the Women's Care Units of Medical Center of the Rockies & Poudre Valley Hospital. Education & assistance is provided on correct installation of the car seat and proper harnessing of the newborn in the seat.

909
consultations
at PVH

627
consultations
at MCR

67% from
Larimer County

26% from
Weld County

Special Health Care Needs

Specialized car seats are provided for a small donation or as a loaner for children who cannot ride safely in a conventional car seat.

3 special need seats distributed

1,536 consultations provided
to new families at MCR & PVH

Bicycle Safety

Permanent Fit Stations allow families to get a new helmet that is fitted properly to them for a minimal donation.
